### Course Information

The Classic Eyelash Extension Training Course is designed for existing lash technicians who want to update their skills, improve their knowledge and learn hints and tips from an experienced award-winning lash artist and educator.

The course is one to one and is personalised bespoke to your needs and areas that you want to improve on. Ensure you get the most from your course; it's helpful if you send me a few bullet points of areas you want me to concentrate on. It is beneficial for you to have an hour to an hour and a half of theory before practical work on your model. If you took your training over two years ago, it's more than likely you will need updating with new techniques, styles and best practices as the lash industry is forever changing. There's no such thing as too much knowledge!

### Why choose Eye Love Lashes Training?

My students will receive a discount code for public liability insurance with ABT, however, the course is recognised by all UK insurers. Eye Love Lashes is not affiliated to a particular brand, therefore you can choose your own products.
